

Solution Requirements

Date	7 JULY 2026
Team ID	-
Project Name	AI-Powered Debt Relief & Financial Recovery Platform
Maximum Marks	4 Marks

Define Functional and Non-Functional Requirements:

Create a comprehensive list of requirements to define exactly what your solution will do and how well it will perform.

- **Functional Requirements (FR)** define specific behaviors, functions, or features of the system (What the system should *do*).
- **Non-Functional Requirements (NFR)** specify the criteria that judge the operation of a system, rather than specific behaviors (How the system should *be*).

Fill out the descriptions and necessary details for each category provided below.

Step 1: Functional Requirements (FR)

S.No	Requirement Category	Requirement Description	Priority (High/Medium/Low)
1	Authentication	<i>Users can securely register, log in, and verify their identity using email/OTP.</i>	High
2	Authorization levels	<i>Borrowers and admins have different access permissions.</i>	High

3	External interfaces	<i>Integrates with Gemini AI API, Banking APIs, and Email/SMS services.</i>	Medium
4	Transactions processing	<i>Stores loan details, tracks EMI payments, and processes repayment information securely.</i>	High
5	Reporting	<i>Generates loan summaries, repayment schedules, AI recommendations, and financial reports.</i>	High
6	Business rules, etc.	<i>AI analyzes financial data and recommends the best repayment and settlement strategy.</i>	High
7	Compliance to laws or regulations	<i>Protects user data according to privacy and financial security standards.</i>	High
8	Other	<i>Sends EMI reminders, payment alerts, and financial recovery notifications.</i>	Medium

Step 2: Non-Functional Requirements (NFR)

S.No	NFR Category	Requirement Description	Target Metric / Acceptance Criteria
1	Performance & Speed	<i>Fast response for AI analysis and dashboard loading.</i>	<i>Response time < 2 seconds</i>
2	Scalability	<i>Supports increasing users without affecting performance.</i>	<i>Supports 10,000+ users</i>
3	Security & Data Privacy	<i>Encrypts user financial data and secures login.</i>	<i>AES-256 encryption</i>
4	Reliability & Availability	<i>System should be available most of the time.</i>	<i>99.9% uptime</i>
5	Usability & Accessibility	<i>Easy-to-use interface on mobile and desktop.</i>	<i>User-friendly and responsive UI</i>
6	Other	<i>Easy maintenance, regular updates, and backup support.</i>	<i>Daily backup & easy maintenance</i>
