

Scalability & Future Plan

Date	12 JULY 2026
Team ID	-
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited support for external banking APIs	Manual financial data entry	High
2	AI recommendations depend on user-provided information	May reduce recommendation accuracy	Medium
3	No multilingual support	Limited accessibility for users	Low

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud with load balancing
2	Data Storage	MongoDB database	Scale using MongoDB Atlas clusters
3	Performance	Single server deployment	Implement caching and optimize APIs
4	Security	Basic authentication	Add JWT, MFA, and data encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 2	Banking API integration	3 Months	Automatic financial data collection
Phase 3	Credit score prediction using AI	6 Months	More accurate financial recommendations
Phase 4	Multilingual support and mobile application	9-12 Months	Increased accessibility and user reach
